### Resolving Church Conflicts

Even upon even a casual observance it is easy to see that the church is the most diverse institution in the world. There are none that are not welcome in the church of our Lord Jesus Christ. It is open to all, who in faithful obedience, come to the Lord. Thus, the church is a collection of all kinds of people. They have different backgrounds, races, personalities, educational levels and different levels of spiritual maturity and understanding.

While the diversity of the church is in part that which makes the church the greatest institution in the world, it is also that which ensures that difficulties and conflicts will arise. What do we do when members of the Lord's church have conflicts and difficulties with one another? The Bible has much to say on this particular topic and it is that to which we give our attention in this lesson.

The Lord's plan for His church is perfect. Just because, from time to time, there are problems between those in the church, this does not in any way mean that there is a problem with the church. The Lord's church and His plans for that church are perfect—We Are Not!!! Raise your hand if: you have never done anything wrong, you have never said something that hurt or offended another or you have never done anything that hurt or offended another. The fact of the matter is that we as individual Christians are not perfect, we are in the process spiritual maturation.

There is no such thing as a perfect family, a perfect work environment—and there is no such thing as a perfect local church. The Lord's blueprint for the local church is perfect, but we as imperfect Christians often do and say things that lead to less than ideal situations. What causes problems or conflicts within the local church? As individuals we are going to have differences of opinions on a variety of different issues.

In matters of doctrine we must believe and practice the same things, there is no room for opinions in the matter of doctrine because it is given to us in Scripture—1 Cor.1:10. This is why it is so important that we understand those principles of establishing biblical authority. There are, however, matters that fall within the realm of opinion, and everyone has their own opinions—example, matters of expediency. But may we always remember that: In matters of doctrine—unity, In matters of opinion—liberty and In all things—love.

People are different levels of spiritual maturity and knowledge. People have different personalities. People often just misunderstand each other. Sometimes conflicts are caused because people do not do those things which will help us to avoid conflicts in the first place. In this lesson we are going to first discuss some biblical principles which will allow us to overcome conflicts which arise in the local church. Secondly, we are going to discuss some practical steps that will help us to avoid conflicts in the first place.

The Bible has much to say on this issue but I want us in this lesson to take a look at a specific biblical example that has much to teach us in the way resolving conflicts among church members. It is my prayer that if you are ever involved in a conflict within the church that you may gain some knowledge by reading this article and paying attention to the lesson.
